The KRC has a wide selection of books of all kinds. It has volumes on literary, scientific, historical, political-religious, and social topics. Additionally to this, newspapers, magazines, journals, articles, thesis, project reports and online databases are also offered in our KRC. All the books are managed in a systematic manner in the book shelves. The books are kept in a way that, any book can be easily found by users. They can visit the KRC, choose a book, and get it issued. Apart from Central Library, there are four departmental libraries which are located on various locations in the campus. The KRC is a great place for learning, where the knowledge can be improve and increase reading books. Our college students, research scholars and many of the faculty's members spend hours in studying, researching and gaining knowledge in KRC at our university.

Moreover, the KRC staff and faculties are always willing to assist the students in the selection of books and provide the guidance on how to use the KRC resources effectively. At last, I can conclude it by saying that, we are very fortunate to have a good KRC in our University, because the pleasure of reading books is a strange and novel experience of life.

As a law student, the KRC's e-resources has helped me a great deal to complete my legal research efficaciously by providing with the most credible remote access to KRC e-resource like manupatra, SCC online, Lexis Nexis and many more off-campus access. Moreover, the KRC has a modern infrastructure. It offers a quiet and productive environment for studying with designated areas like a group study room, individual study carrels for both students and faculties, computer workstations, a presentation practice room and many more other facilities.

Additionally, the KRC staff is always willing to assist the students and faculties with research and reference inquiries and provides guidance on how to use the KRC resources effectively.
